PCPA COMMITTEE REPORT

Greetings and welcome to another edition of the Poona Post.

Hall Renovations

The renovations continue. Yes, we are making progress, but it has not been straight forward. We projected that the renovations should be finished by the end of February and potentially extending into March and that will be the case. The plasterers' work extended a little longer than anticipated, but time was made up with the internal painting only taking one week (the exterior is still to be planned). The major holdup will now be floor coverings. At the time of writing this task was due to commence at the beginning of March, but a date has still not been confirmed.

As soon as the floor covering is completed, we have a fair bit of work to do in the servery area and the pantry. Attempting to fit the current pantry fixtures into the new work has been problematic. The entire unit will not fit as it is, but we may be able to use some of the sections. Rather than shelving, we will be opting for cabinetry with doors, to keep out the dust. Shelving will be sourced commercially for the storeroom.

Acknowledgements and Thank-you

Renovations are by far one of the most frustrating things to do. Worse than building, because you never know what you are going to get (and we got a few doosies). Things don't just happen, they take coordination, expertise, patience and a good sense of humour. So,

To Adam Glover, Wayne D'Or and Lane Wagner from All Things Timber and Concrete thanks for the construction – good work guys

Thanks also to Tony Regetas for his assistance to the electrician during the renovations.

A very big thank you to Peter Rummery, who in a previous life was a painter. Peter still 'enjoys' painting – I don't know too many people who do. But, we have it looking a million dollars. Thanks for your time, Pete.

And last but by no means least – an enormous thanks to Angelo Cotugno – Angelo has worked with me for days, labouring for the electrician, trying to get the pantry to fit, conducting an ergonomics study to make sure that we put the right bits in place to allow efficient workflow in the kitchen and servery. Angelo has also done a heap of work on the new bookcase going into the rear of the hall. You are a definite asset mate - thanks Ange – great job.

I would also like to acknowledge the work of the Activities Coordinators. While the hall has been out of commission, coordinators have organised alternative sites for the members of their groups so that things keep moving. That's initiative, great job, thank you, ladies.

Events

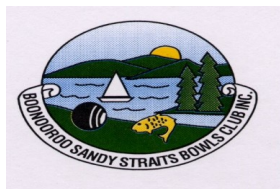

Kathy Moore has been doing a heap of work with the events team over the past month, organising coming events. Great work Kathy and the team. Check out the events planned for this year later in this edition.

It is intended to have our March General meeting on 12 March. The agenda will be posted on the website, as usual.

Thank you to the community for your patience during the renovations. Stay Safe.

Harry

FISHING REPORT

Page 3

German Creek has been one of the favoured locations with Anglers casting soft plastics or hard bodied lures into the drains on the making tide and landing quality Threadfin Salmon and Barramundi or fishing the deeper holes and catching some quality Grunter around the 50cm mark.

Sneaking out early on a good day and heading across the straits towards the island ha We don't think we have to mention how frustrated everyone is getting with the weather, but the beauty of this area is you can always find some where to tuck away from the winds and land a quality fish. Let's check out this fortnights fishing report.

Sticking to the Rivers and Creeks along the mainland such as Tuan, Maaroom and Poona Creeks or the Mary, Susan and Burrum Rivers has really been the pick of the spots for local boaties over the past couple of weeks, and they haven't been disappointed with a wide variety of fish being landed. Good size Summer Whiting, Silver Bream and Flathead are being landed for those who are walking the sand flats at low tide either collecting fresh bait like yabbies or flicking a soft plastic or hard bodied lure. And in the deeper water anglers have been getting Mangrove Jack, Barramundi, Grunter, Black Bream and Threadfin Salmon with live bait being the preferred method.

s also been paying off with our protected reefs and ledges producing mixed bags of quality reef fish such as Parrot, Grassy Sweetlip, Mosses Perch and Cod.

Still lots of reports rolling in of quality mud crab being caught in the Mary and in the creeks in the Straits. Well worth soaking a pot.

We have had a couple of prawn reports and for those willing to put in the effort- Swan, Tuan and Maaroom Creeks have been producing the goods with the average size prawn around 4 inches.

For the fresh water fisherman there's been plenty of fresh water action as well Tinana, Tiaro and The Mary are all reporting Bass and Sooties.

Lets check out the brag board:

First up is Brodie with a beautiful Black Spot Tusk Fish (Bluey) it weighed in at 7.6kg.>>>>

<<<<<<<<Tyson had a great day chasing the Barra. This one went 85cm

Andrew landed this 1.6kg Flathead using a live mullet.>>>>>>

<<<Cuteness overload – Alexia-Jayne was all smiles landing her first ever fish.
