ANZAC Day

The ANZAC spirit was forefront in the hearts and minds of Poonarians, Veterans, guests and visitors throughout Poona's touching tribute to honour our brave ANZACs. The memorial service was very well attended and expertly delivered, with many positive comments received from attendees. This is only possible with the ongoing work and support from our wonderful volunteers who year after year ensure our ANZACs fallen, retired and serving are never forgotten. A very sincere thank you to Peter Heit, Marilyn Laffey, the Garden group and kitchen team for a memorable day.

Morning guys

here is this fortnights fishing report.

We sure have had our mix of weather conditions over the last fortnight. However, where there's a will there's a way, and by sticking to the protected creeks and estuaries our Fraser Coast anglers have been bringing home a good feed of fresh fish – and there's nothing better. Let's check out this fortnights report.

Outsiders must be so jealous of our Mary and Susan River systems – to think in 20knot winds they still offer protection from the winds and contain such a variety of species. Recent catches of Silver and Black Bream, Flathead, Salmon, loads of Grunter and cod. Plus, the beginnings of our winter fish now that water temps have dropped. Baiting up a livey for the Jew or ganging Pillies for a Tailor have been the most productive method.

The creeks and inlets are still jam packed full of bait. Cast netting has been producing plenty of mullet and herring with the elusive prawn still sticking to very isolated schools. Another bait bonus to the cooler months is squid, locals have been hand spearing or jigging a few up around the shallows and coffee rock ledges.

Drifting through the deeper waters has got most their bag limits on winter whiting, still only an average size of 21 -23cm but enough for a fresh feed, and with squid, sand crabs and some prawns showing up it doesn't take much to get your every own sea food banquet.

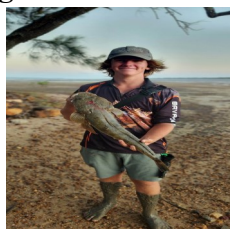

Add into the mix the pelagic fish such as Tuna, Queenies and Maceral being reported in multiple locations such as around the channels between snout point and the bluff. River Heads to Urangan and off the pier fisho's are sure to have the arms stretched.

Mud crabs are still on the move in the Sandy Straits. Reports of great quality and quantity being caught. Either soaking a pot or walking the flats with a hand spear should get results.

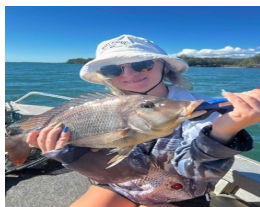

Let's have a look at the brag board – First up is Bill with his gorgeous 82cm Flathead, this big girl was released safely.

Next is Mason who also got into the Flathead, this one went 68cm.

Glenn had a great day out landing this 13.49kg Cod, awesome fish.

Paige is doing it for the girls with this nice Grassy.

Last up is Haylie with a very tasty looking Tusky, well done
